PROFESSIONAL SUMMARY

Senior full-stack software engineer and founder with 6+ years of experience building production web, mobile, and desktop applications. Creator of Acode, an Android code editor with 5M+ downloads and 700K+ monthly active users. Strong in TypeScript, JavaScript, React.js, Node.js, Flutter, Electron, REST APIs, GraphQL, databases, real-time sync, secure systems, and end-to-end encrypted products. Proven ability to design architecture, ship from zero to scale, and own products across frontend, backend, mobile, cloud, and developer tooling.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Java, Dart, HTML, CSS, SCSS, SQL
- **Frontend:** React.js, Progressive Web Apps (PWA), Chrome Extensions, responsive UI, WebView, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, GraphQL APIs, WebSockets, gRPC, authentication, authorization
- **Mobile/Desktop:** Flutter, Android, iOS, Electron, macOS, Windows, cross-platform application development
- **Databases:** PostgreSQL, PostGIS, MySQL, SQLite, MongoDB, DynamoDB, Cassandra, Firebase
- **Cloud/Dev Tools:** AWS, DigitalOcean, Git, GitHub, GitLab, Bitbucket, Webpack, Vite, Rollup, Play Console
- **Specialized:** End-to-end encryption (E2EE), real-time sync, LLM prompts, AI workflows, POS systems, developer tools

PROFESSIONAL EXPERIENCE

Founder and Full-Stack Developer - Foxbiz Software Pvt. Ltd.

Bilaspur | May 2025 - Present

- Built Foxbiz POS, a cross-platform point-of-sale product for browser, desktop, and mobile with receipt printing, label printing, online store integration, and business analytics.
- Developed desktop functionality with JavaScript and Electron, mobile functionality with Java and WebView, and backend data features with PostgreSQL and PostGIS for store locations and delivery zones.
- Integrated AI-powered analytics to help businesses understand sales, inventory, and operational trends.

- Created Better Keep Notes, an open-source Flutter and Firebase application for Android, iOS, macOS, Windows, and Web with locked notes, E2EE cloud sync, and secure link-based sharing.
- Grew Better Keep Notes to 1,000+ users while maintaining public project resources at betterkeep.app and github.com/foxbiz/better-keep.

Software Developer - Lanesquare Technology Pvt. Ltd.

Bengaluru | March 2023 - May 2025

- Designed maintainable, scalable, secure, and highly available application architecture for production software products.
- Developed chatbot AI action modules that collect data, fetch information from APIs, automate workflows, and execute user-defined tasks.
- Built responsive user interfaces, web applications, PWAs, Chrome extensions, REST APIs, GraphQL APIs, and LLM prompts for production use.
- Delivered a lightweight, responsive, customizable chatbot UI for web, Android, and iOS integrations with minimal performance overhead.
- Developed digital signage player applications across web, PWA, Chrome OS, Chrome Extensions, and proprietary devices used on TVs and media players.

Founder and Full-Stack Developer - Foxbiz Software Pvt. Ltd.

Bilaspur | January 2020 - March 2023

- Created, published, and scaled Acode, an Android code editor with 5M+ downloads and 700K+ monthly active users on Google Play.
- Built and maintained acode.app, supporting 200K+ monthly users with product pages, developer accounts, plugin publishing, and marketplace workflows.
- Designed and implemented Acode's plugin system so developers can publish, manage, and monetize extensions for the editor.
- Developed REST APIs for account management, earnings, plugin publishing, plugin editing, plugin deletion, and marketplace operations.

SELECTED PROJECTS

- **Acode:** Android code editor with 5M+ downloads, 700K+ monthly active users, plugin support, and a developer marketplace.
- **Better Keep Notes:** Open-source cross-platform notes app with E2EE sync, locked notes, and secure sharing.
- **Foxxbiz POS:** Cross-platform POS system with printing, online store integration, geospatial delivery support, and AI analytics.
- **Open Source:** 1.1K+ GitHub followers and 18 public repositories at github.com/deadlyjack.

EDUCATION

- **B.Tech in Computer Science** from CSVTU, Chhattisgarh (2016 - 2020)
- 12th in PCM from K.K Mandal Science College, Bihar (2015)

- 10th from Vivekanand Mission School, Bihar
